Register of Drinking Water Suppliers for New Zealand

PART TWO: Water Carriers

2019 Edition
Printed April 2019

The Register of Drinking-water Suppliers in New Zealand is printed annually by the Ministry of Health, as required by section 69J (4) of the Health Act 1956. This document is one part of this Register and lists suppliers who are registered as water carriers.

Registration is actioned through drinking-water assessors at the public health units of district health boards, and is valid for one year. The Register documents 218 Water Carriers, for which 141 have current registration, as recorded in the Drinking Water Online database on 17 April 2019.

Water carriers are grouped in the Register by health district. Health districts are in north to south order, and carriers are listed alphabetically within those.

Contents

| Health District 1. Northland | 3 |
| Health District 2. North, West, Central and South Auckland | 19 |
| Health District 3. Waikato | 41 |
| Health District 4. Tauranga | 48 |
| Health District 5. Eastern Bay of Plenty | 50 |
| Health District 6. Rotorua and Taupo | 51 |
| Health District 7. Gisborne | 54 |
| Health District 8. Taranaki | 59 |
| Health District 9. Hawke's Bay | 63 |
| Health District 10. Wanganui, Rangitikei and Southern Ruapehu | 66 |
| Health District 11. Manawatu | 70 |
| Health District 12. Wellington and Hutt | 79 |
| Health District 13. Wairarapa | 81 |
| Health District 14. Nelson | 83 |
| Health District 15. Marlborough | 86 |
| Health District 16. West Coast | 87 |
| Health District 17. Canterbury | 88 |
| Health District 18. South Canterbury | 92 |
| Health District 19. Otago | 93 |
| Health District 20. Southland | 100 |
Interpreting a Register Entry

Trading Name for Carrier
Owner: Owner name
Owner address
Town or city
Carrier Code: Unique code for carrier, eg WC00123
Registration: Status: = "Current" if registered/re-registered in the last 12 months:
= "Lapsed" if last registration was more than 12 months ago.
In either case, the date of the last day of registration is indicated.
Initial: The date that the carrier was first registered.
History: The starting date of each registration period, earliest first.

Extraction Zones
One or more distribution zones for registered network or other supplies from which the
water can be sourced for cartage.
Each distribution zone has a unique 8 character zone code, the first 6 characters of which
identify the parent supply code for that supply.

Tanks
One or more trucks, trailers, railway wagons, ships or transportable tanks by which the
carrier is registered to transport the water.
Each tank has a unique code in the Register. The owner may also have a code for the tank,
which for a truck or trailer is the vehicle’s number plate.

Fittings
Identifies the types of hoses and fittings used by the carrier in handling the water.
